

SWAWWA ANNUAL CONFERENCE

2026

SHAPING WATER'S FUTURE

BOSSIER CITY, LA | OCTOBER 25-27

Join us Monday at 1:30 PM for

Hydrant Hysteria

Hydrant Hysteria puts speed, skill and precision to the test as three teams race against the clock to assemble a model fire hydrant. Every second counts—but accuracy and safety matter just as much. Penalties can be assessed for loose or missing parts, safety violations, improper tool handling, a crooked hydrant or a coach entering the competition area. With experienced teams capable of completing the challenge in mere minutes, this fast-paced competition promises plenty of excitement for spectators.

Good Luck to this Year's Teams from Central Arkansas Water, Lafayette Utility Systems and Oklahoma City!
